

Safety Precautions For Working Off-Pavement

Routine maintenance and hazardous fuel reduction is required for all Gold Mountain lots to reduce the risk of a wild land fire. When work is being performed in unpaved areas please use the following precautions:

Vehicles Off-Pavement:

- Only vehicles/trucks with high ground clearance to be driven off pavement
- Low ground clearance vehicles/cars with hot exhaust systems never to be driven off pavement
- Shovels and a water source must be on hand (extinguisher or hose)
- Vehicles only parked in a cleared area free of dry weeds and vegetation

Power Equipment Off-Pavement:

- Small gasoline engines must have proper spark arrestors
- Shovels and a water source must be on hand (extinguisher or hose)
- Equipment (chain saws, weed-wackers, generators, etc.) with hot engines never set down on dry weeds or vegetation
